Mines and Mining Stocks

YERINGTON HAS

Yerington Copper Company Has Big Body of Sulphides 400 Feet Deep.

East Yerington district, was down from Brighton, where he is rusticating with his enough to secure an admission that a big Following is the list of final quotations and record of sales made during the day: strike had been made in the property,

strike had been made in the property, though he pleaded that it was several days since he had heard from the mine.

"I know that the shaft is down 400 feet, and that a fine body of chalcopyrite ore has been encountered in the cross-cut from the bottom," said Mr. Caine, "but it is several days since I heard from the superintendent and I therefore do not know what has been happening since. He had cross-cut toward the contacts fourteen feet when he wrote to me, but ne must have gone a considerable distance since. As the shaft went out of the vein about half way down, the bottom was in the lime foot wall country and the expectation was that some distance would have to be covered to tap the ledge again. It is evident however, that the vein is either a great deal thicker below or that the ore makes out into the lime. I am inclined to think the latter is the case."

Arrivals from camp state that the cross-cut had been sent out thirty-four feet in the case last Sunday with nothing to indi-

cut had been sent out thirty-four feet in the ore last Sunday, with nothing to indi-cate when its limits would be determined Yerington mining men and engineers who have seen the property make the statement that it is going to make as big a mine as there is in that section.

Ore and Bullion.

Ore and bullion settlements in this city yesterday, as reported by McCornick & Co., amounted to \$55,000, as follows: Sil ver, lead, gold and copper ores, \$15,000 base bullion, \$40,000.

COPPER STOCKS IN **BOSTON AND NEW YORK**

Following is the daily market comment of Paine. Webber & Co., Boston, together with the range of prices of copper stocks and other Boston listings in which the west is interested, as well as a similar report on New York curb transactions, by James A. Pollock & Co, and from which it is secured for use in this departmen

Boston, Aug. 14.—The liquidation which has been going on for a few days became more violent today and prices broke easily closing at the bottom, with an average decline of two to three points. This is the break which you have been waiting for, now have courage enough to buy them at the opening tomorrow. There is them at the opening tomorrow. There is no change in conditions, and this is a

golden opportunity to get in right. Boston Copper Stocks.

Stevens-Duryea Sixes

Some Reasons for Their Superiority.

The superiority of the Stevens-Duryea lies in the perfect harmony of its various parts—not one feature here and there, but a blending of all that is best in automobile design and construction.

The famous Stevens-Duryea Unit Power Plant, supported on three points, relieves the engine and bearings of the shock, twist and jar unavoidable on American roads, thus removing the most frequent cause of repair bills and meaning long life to vital part of car. The Unit Power Plant supported on Three Points also does away with heavy frame construction and numerous engine supports needed on cars without a Three Point support, thereby reducing tire trouble to a minimum.

The Six Cylinders insure suppleness, quiet running and absolute freedom from vibration. The Six-Cylinder engine may be throttled down to four miles per hour and instantly accelerated to a speed fast enough to satisfy any speed enthusiast. Arrange for a demonstration.

MINING STOCK EXCHANGE.

nounced Sagging Tendency. The local mining share market continues to sag and it looks now as though stocks might go off several points before a rally comes. The slumpy condition of the eastern market is having its effect also, and the situation is not at all assuring. Save for patrons looking for a chance to realize the public is not in the market to any appreciable extent, so professional traders are beginning to have things their own way. As one of the brokers expressed it yesterday:

"The public is now selling: it always sells when prices are down and buys when

Joseph E. Caine, manager of the Yerington Copper company's properties in the
list tactics, it could now get in the game
and make money."

Description of the Yerington Copper company's properties in the
list tactics, it could now get in the game
and make money." During the two regular and open board Brighton, where he is rusticating with his calls a total of 90.942 shares of stock, with family, yesterday. He was held up long a selling value of \$45,770.14, changed hands.

site is going to be extremely valuable ly belongs to it in the mining world.

site is going to be extremely valuable before long.

Mr. Craig spent a portion of one day in visiting the great milling and smelting plants of the Nevada Consolidated and Cumberland-Ely companies, where nearly 2,000 tons of ore are now being treated in the mill and where three reverbertories and one blast furnace at the smelter is kept going to reduce the concentrates and crude ore to blister copper. While these works are not yet running at half capacity, it is evident, from the preparatory work going on that the intention is to enlarge all around, with everything to suggest that the increased capacity will be provided between now and next year.

In SIDERS TAKE UP STOCK

OF INDIAN QUEEN C

As another indication of what Da Evans and Jesse Knight are calculated that they yesterday follow the stated that they yesterday follow the property stock at 50c by the stated that they of 100,000 shares of 100,000 shares at four out, 42,000 shares were sold in market. The purchase of yesterday by other owners of the property, cleans

1.80 neral Hill ...

Disclosures in the Arkansas Mine Settle Future of Rich Copper Camp.

There is apparently no longer a shadow of doubt that the famous Seven Devils copper district is going to cut a wide swath in the copper production of this country, and that before long. Fred D. Smith, well known here and at Ely, Nev.,

at 50 Cents a Share.

At a meeting of the directors of the King David Mining company, held Thursday affect of the other organizers of the corporation authorized the issuance of 10,000 share and bought it all themselves. This gives the other organizers of the corporation authorized the issuance of 10,000 share and bought it all themselves. This gives the mines of treasury stock at 50c a share and bought it all themselves. This gives the mines of treasury stock at 50c a share and bought it all themselves. This gives the mines of the company a treasury containing 50,000 with the started and equip the mines.

We did not even walf, the mines. On the company and the property of the supplied some the street. As a strong that there is no question abought it all themselves, "I was decided at the mines. On the surface. An iron capture was commenced several days of the surface and the district the work will be started at once. We shall be put in from the work will be started at once. We shall be put the started at a point 1.30 the work will be started at a point 1.30 the work will be started at an extending and other facilities for heavy and rapid development would be provided and before the put of the measure through the pip line. As we shall likely but up water as soon as we see the surface and other facilities for heavy and rapid development would be provided and before the put of the present through the pip line. As we shall likely but up water as soon as we see the configuration of the present would be provided and before the put of the present would be provided and before the put of t

With the "sinews of war" provided in such generous amount and with an assurt ance that ore will be encountered in the such generous amount and with an assurt ance that ore will be encountered in the new shaft, or close to it within a month or two, the King David company enters upon its career under auspices many times more favorable than most big corporations.

ELY CAMP IS PRODUCING LOTS OF ORE THESE DAYS

W. J. Craig, manager of the Federal Ely company, returned yesterday from a several days' trip to Nevada's big camp of copper. He declared there was nothing concerning the affairs of his company that could be talked about at the present time, as nothing was doing at the mines. At the company's big ranch, where its water rights and millisites are located, he said that a great deal of hay was being cut.

Mr. Craig says that, outside of the work being done by the big companies, the camp is not moving as rapidly as it might do, though it is evident to any observer that Ely is going to become a bigser camp than the most optimistic of untinitiated can comprehend at the present time. Many properties in that district, other than those now controlled by the few big companies, will be brought to the front by and by, and even now his able to see where the Federal standard content water rights and millisites is going to become a bigser camp than the most optimistic of untinitiated can comprehend at the present time. Many properties in that district, other than those now controlled by the few big companies, will be brough to the many than the most optimistic of untinitiated can comprehend at the present time. Many properties in that district.

With much disclosures as have been made and the district. With much disclosures as have been in the Arkansas, nothing now stands in the Arkansas, nothing now stands in the Arkansas, nothing now stands in the Arkansas and the district. With much disclosures providing adequate smelting facilities and turning the rich ores in the Colorado Carlsa (Carlsa (Carlsa (Carlsa (Carlsa (Carlsa (

OF INDIAN QUEEN CO.

As another indication of what David Evans and Jesse Knight are calculating on doing down in Beaver county, it can be stated that they yesterday followed up their purchase of 100,000 shares of up their purchase of 100,000 shares of King David treasury stock at 50c by taking over 58,000 shares of Indian Queen stock at the quoted market price of 12½c a share. Of the 100,000 shares at first put out, 42,000 shares were sold in the market. The purchase of yesterday by the chief owners of the property, cleans up that issue and gives the treasury a fine balance for the further prosecution of balance for the further prosecution of work in the long tunnel now being driven with power drills

with power drills.

This property is located a couple of miles east of Newhouse, and the character of the country being developed is such that the owners are banking on making another big mine there. While the objective point of the tunnel is a long way ahead, some fine mineral-bearing fissures have already been cut in the tunnel.

GOLD VALUES CLIMBING IN CROWN'S NEW TUNNEL

That a substantial change for the bet-ter in the character of the ore being encountered in the new tunnel being drivencountered in the new tunnel being driven by the Gold Circle Crown company, has just occurred, was emphasized in the samples of rock brought in by President W. F. Snyder's son, Ed., yesterday morning. The ore is a fine-looking quartz filled with iron carbonates, and, instead of the \$12 values that have been prevailing since the tunnel was started, the latest face assays are showing from \$40 to \$50 in gold per ton. The face of the tunnel is now approaching or entering ground that is relied upon to show substantial results, and the change that has been taking place during the past few days, as shown in the character of the rock brought in from camp, is causing all kinds of rejoicing at the headquarters of the company. ters of the company.

ZUMA COMPANY GIVES DEED TO GROUND

Provo, Aug. 14.—A deed from the Zuma Mining & Milling company to the East Tintle Consolidated Mining company, conveying a portion of the Zuma No. 2 lode in the Tintic district, has been filed with the county recorder. The consideration is \$1 and other valuable consilderation.

Metal Markets.

Silver—51¼c per ounce. Copper (cathodes)—13¼c per pound. Lead—\$4.57 per 100 pounds.

Mining Notes. Four carloads of ore from Utah mines were released from the Pioneer sampler yesterday. OPENING AND

Ed. Shearer of the Nevada Gold Circle company and lessee of the Kalsh property in the Gold Circle camp, came in yesterday morning to look after business on this end of the line. President Charles M. MacNeill of the

Utah Copper company left for Colorado Springs again yesterday afternoon. He was accompanied by George Crumb, the well known mining engineer. Six carloads of Utah ore and two from Nevada were reported at the Taylor & Brunton sampling works yesterday morn-

Samuel Newhouse, Lafayette Hanchett and A. J. Bettles were all at the big Gar-field milling plant of the Boston Consol-idated company yesterday.

idated company yesterday.

George E. Gunn of the Gunn-Thompson company, and one of the chief men in the Cumberland-Ely company, the Chainman Consolidated and other big propositions of Ely, returned from a several days' trip of inspection to the Nevada bonanza copper camp yesterday morning. He expressed himself as highly pleased with the manner in which everything was moving, but had no detailed information to release. He will leave shortly for a combined business and pleasure trip into the Frazer river country, British Columbia.

SEPTEMBER 28

CAREY ACT LANDS

40 ACRES FOR YOU

The Man on Salary— The Man With a Trade-The Unmarried Woman Who Works-

Will find in the great Oasis Carey Land Project an opportunity to establish a competency, to put aside a rainy day fund in the best savings bank in the world, by filing on a forty-acre tract of land in the Pahvant Valley and contracting for

THE BANKER YOU DEPOSIT WITH LOANS YOUR MONEY ON IRRI-GATED LANDS. This is something to ponder over. Your first payment is \$10 to the State and \$240 on the water contract; within three years you pay \$10 more to the State, cultivate one-eighth or more of your land and get your patent. You pay \$6 per acre per year and you make ten payments. You pay 6 per cent interest on deferred payments. You take possession at once. You can contract the clearing and plowing of land for \$5 per acre. We guarantee this.

Your crop next September, one year from date, will make your payments, pay all interest and give you a nice profit. You don't have to live there: you can hire all your work done and get these results. It is a fine vacation for you if you are single. If you are married, you have a delightful place to live; good schools, healthful climate, lithia water, fine railway and mail service, long distance phone, and many creature comforts.
